

Units Editor

This view adds a convenient editor to customize the “Units” database used by the “Unit Conversion” tool. To show it, touch the [Units Editor] button in the “Units” conversion tool or, select the “Units Conversion” in the “Editors” sub-menu from the “Utilities” options menu.

Touch a category name to navigate to its units. Touch a unit to navigate to its definition.

Touch **Add** to insert a new category or a new unit within the selected category. Touch **Edit** to delete a category or a unit.

Touch the [**Reset**] button to reset any change and recover the original factory database.
